**(PDF) Journal of Horticulture and Forestry Agroforestry**

Agroforestry systems can be classified in different ways using structural and functional considerations (Table 3). One common classification of agroforestry includes agrosilvopastoral, silvopastoral or agrosilviculture systems, which can be further sub-divided depending on specific arrangements and/or functions.

**Technical Paper 3: Agroforestry Systems - Concepts and**

### **Agroforestry practices and concepts in sustainable land**

concepts associated with agroforestry that make this system of land management possibly the most self-sustaining and ecologically sound of any agricultural system. Thus, a second definition of agroforestry would be the integration of trees, plants, and animals in conservative, long-term, productive systems. Agroforestry can be considered more as an approach than as a single, finished ...

### **AGROFORESTRY PRINCIPLES - UMass**

Agroforestry is not a system of pots on the balcony nor for the greenhouse. It is a system to manage the land. It is a system to manage the agricultural resource, land, for the benefits of the owner, and the long-term welfare of society.
