Drug design, often referred to as rational drug design or simply rational design, is the inventive process of finding new medications based on the knowledge of a biological target. The drug is most commonly an organic small molecule that activates or inhibits the function of a biomolecule such as a protein, which in turn results in a ...

Strategic design is the application of future-oriented design principles in order to increase an organization's innovative and competitive qualities. Its foundations lie in the analysis of external and internal trends and data, which enables design decisions to be made on the basis of facts rather than aesthetics or intuition.

In 2014 I was invited to attend a four-day Transcendental Meditation training. This invitation came at the perfect time on my spiritual path. By this point on my journey I was heavily involved in the practices of Kundalini meditation and I was taking myself through another round of the daily meditations from A Course in Miracles.
