Communication (from Latin comm^{unic}are, meaning "to share") is the act of conveying meanings from one entity or group to another through the use of mutually understood signs, symbols, and semiotic rules.

Communication - Wikipedia

Telecommunications engineering is an engineering discipline centered on electrical and computer engineering which seeks to support and enhance telecommunication systems.

Telecommunications engineering - Wikipedia

We live in the age of information, where communication and information processing are at the heart of our modern society. Intelligent transportation systems, smart cities, traffic safety, positioning and navigation, eHealth, Industry 4.0, and cloud services, all rely on our ability to store, share, process, and deliver massive amounts of data.
