Medicinal plants are plants which are used in herbalism and thought to have certain extractable/compound in their leaves, stems, flowers and fruit for medicinal purposes. These extracts are used as inputs in the pharmaceutical, nutraceutical, insecticide and other chemical industries. The booklet is a guide to the most commonly utilised medicinal plants in South Africa. 1. Aloe ferox ...

Medicinal plants - daff.gov.za

Medicinal plants, also called medicinal herbs, have been discovered and used in traditional medicine practices since prehistoric times. Plants synthesise hundreds of chemical compounds for functions including defence against insects, fungi, diseases, and herbivorous mammals. Numerous phytochemicals with potential or established biological activity have been identified. However, since a single plant contains widely diverse phytochemicals, the effects of using a whole plant as medicine are uncerta
