In this section we will discuss the only application of derivatives in this section, Related Rates. In related rates problems we are given the rate of change of one quantity in a problem and asked to determine the rate of one (or more) quantities in the problem. This is often one of the more difficult sections for students. We work quite a few ...

Read an Excerpt. Hi! These are the notes from my world history class. Oh, who am I? Well, some people said I was the smartest kid in class. I wrote everything you need to ace MATH, from the FRACTIONS to the COORDINATE PLANE, and only the really important stuff in between-you know, the stuff that's usually on the test!

Everything You Need to Ace Math in One Big Fat Notebook

This problem is a noticeably more difficult question to answer. You'll see that not only are you expected to know the straightforward math principle (as above), but you'll have to wade through a word problem to even begin setting it up.

GRE Math Practice Questions - Magoosh GRE Blog

This page is an index to the math questions that have appeared on SATs released via the College Board QAS or as Official Practice Tests. The questions are arranged by topic, and each is described briefly.

GRE Math Formula Topics. Here is a list of the main concepts and formulas you'll need to know for the

GRE. Each of these concepts is addressed in the Magoosh's Complete Guide to Math Formulas eBook.

GRE Math Formula eBook - Magoosh GRE Blog

In mathematics, the continuum hypothesis (abbreviated CH) is a hypothesis about the possible sizes of infinite sets. It states: There is no set whose cardinality is strictly between that of the integers and the real numbers.

Continuum hypothesis - Wikipedia

A river crossing puzzle is a type of puzzle in which the object is to carry items from one river bank to another, usually in the fewest trips. The difficulty of the puzzle may arise from restrictions on which or how many items can be transported at the same time, or which or how many items may be safely left together. The setting may vary ...

material added 17 February 2001. Erich Friedman made a page about Circles through Points. David Eppstein (Geometry Junkyard) suggested combining these problems.

Solution - math puzzle

CSS Positioning. HTML tables can be used to do much of the positioning required by math, but the code required to do this can be very cumbersome, so that the bulk of the code is about arranging the formula as a table, rather than about the formula and its parts.

Math in HTML with CSS - Zipcon

Most kids find it challenging to explain how they solve math problems and to put what they know about math into words. These ten simple classroom routines can help make math talk a regular part of your day: 1) Start your math block with a strategizing session instead of a traditional warm-up problem. Rather than [!]

10 classroom routines that get kids talking (and writing

1 Introduction. Lua is a powerful, efficient, lightweight, embeddable scripting language. It supports procedural programming, object-oriented programming, functional programming, data-driven programming, and data description.

Lua 5.3 Reference Manual

Impressive, most impressive (I've heard that somewhere, DeathStar or some place like it). Thanks for sharing. In the true interest of sharing, I look forward to directing my math teachers (and really, my entire faculty) to this post.
